Change in Incurred Claims and Claim Adjustment Expenses
Reserves as of December 31, 2018 were \$64,073,679 for incurred claims and claim adjustment expenses. As of June 30, 2019, \$49,117,903 has been paid for incurred claims and claim adjustment expenses attributable to insured events of prior years. Reserves remaining for prior years are now \$7,784,058 as a result of the re-estimation of unpaid claims and claim adjustment expenses. Therefore, there has been favorable prior year development of \$7,171,718 during 2019 for the year ended December 31, 2018. The favorable reserves developments are attributable to claims settled for amounts less than originally estimated, primarily due to lower health care cost trends as well as the actual claim submission time being faster than assumed in establishing the accrued medical expenses in the prior year. These adjustments are generally the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased as additional information becomes known regarding individual claims.
